Imaging Biometrics®, LLC (IB), a subsidiary of IQ-AI Limited (LON:IQAI) and the recognized leader in quantitative imaging analysis for brain tumor diagnosis and treatment, today announces it has taken its suite of products online via Arterys's industry-leading medical AI platform. The products include IB Neuro, the premier magnetic resonance (MR) imaging dynamic susceptibility contrast (DSC) perfusion solution; IB DCE; IB's Delta T1 mapping algorithm; and IB Diffusion.

This non-exclusive agreement allows Arterys's global customer base to access IB's solutions for trial and purchase on the Arterys Marketplace.

According to Arterys CEO John Axerio-Cilies:

*"Imaging Biometrics sets a high bar for other medical AI innovators. We're excited to bring their algorithms online to the Arterys Marketplace and deliver the tremendous clinical value they create to oncologists and cancer patients across North America and Europe."*

*"We are delighted to make our products available to the doctors at hospitals around the world who are already connected to the Arterys platform and look forward to providing sophisticated imaging solutions to benefit clinicians and their patients,"* said Michael Schmainda, CEO of IB. *"The automated and proven accuracy of our solutions are immediately available for trial or purchase through the Arterys platform, and we look forward to expanding the use of our solutions to a much larger customer base,"* Schmainda added.

## About Arterys | [marketplace.arterys.com](https://marketplace.arterys.com)

Arterys is the market leader and the world's first internet platform for medical imaging. Its objective is to transform healthcare by transforming radiology. The Arterys platform is 100% web-based, AI-powered, and FDA-cleared, unlocking simple clinical solutions. Since March 2020, Arterys has helped medical AI developers around the world go code-to-clinic in weeks, not years. For more information on Arterys, please visit [www.arterys.com](https://www.arterys.com).

## About Imaging Biometrics® LLC

Imaging Biometrics®, a subsidiary of IQ-AI Limited (LON:IQAI), develops and provides visualisation and analytical solutions that enable clinicians to better diagnose and treat disease with greater confidence. Through close collaboration with top researchers and clinicians, sophisticated advancements are translated into platform-independent and automated software plug-ins which can extend the base functionality of workstations, imaging systems, PACS, or medical viewers. By design, IB's advanced visualisation software seamlessly integrates into routine workflows.
